Tony

I refer to our meeting of 26 April in Sydney.

At that meeting you informed me that Damien had agreed to relinquish the name "MRA Insurance" for the sole use of MRA(NSW) provided a formal request was made to him: we did write to him on the matter. He replied, firstly, that you did not have the right to make such a statement, but nevertheless he would be prepared to 'release' the name.

Two things arise out of Damien's statement. Firstly, in respect of the name, it appeared Damien wished to maintain some measure of control over the name. This is unacceptable to us and we therefore will not take him up on the offer unless he is willing to relinquish the name in toto.

The second matter is perhaps of more serious concern. At our meeting we discussed another, sensitive matter, dealing with the federal sphere of motorcycle politics. During those discussions you offered certain assurances about the attitudes and actions of MRA(Vic), and based on those assurances, we agreed to consider certain actions.

Given your apparent misunderstanding in relation to the insurance matter above, we now have some doubts about whether your comments on this other matter accurately reflect the views of MRA(Vic). Accordingly, we now have some hesitation in acting on those comments.
